Attention of the Secretary.

Dear Sir:

Can we secure from you photographs, or unmounted photographic prints, of various forms of "Money"?

In the Guaranty Trust Company's House Organ of last summer there were a number of such photographs supplied by you. This included the Chinese Knife, Cowry Shells, Indian Wampum, Chinese Spade, Solomon Island Pearl Shell Rings, The Roman As, The Silver Coin, Aeguis; the Gold Stater of Croesus, The Chinese Tael, The Ghost Head Coin, Coal Money and Siamese Silver Bars.

Kindly send bill for these prints, and greatly oblige

Very truly yours,

R. A. Browne
Editor.

Dear Sir:

Your favor of November 21st at hand, concerning certain photographs used by the Guaranty Trust Company. We have no prints of these at hand, as most of these negatives were taken by them from specimens in our collection. As they paid for having this work done, we think it would be as well for you to get their consent for the use of these photographs. They probably would loan you the photographs. If not, you probably can get these negatives at the photographer that did the work. At any rate, if you care to come up here, we can pick out various subjects you might want to use.

Very truly yours,

Curator.
